

INTRODUCING COOLIFTING

Unlock your skin's potential for radiance and luminosity in just 4 minutes with the newest facial technology from Europe. CoolLifting is a new facial that combines a controlled spray of carbon dioxide and a blend of hyaluronic acid and botanicals to generate beautiful results with no downtime, no injections, and no pain.

DID YOU KNOW?

- It has been observed that when skin is exposed to high concentrations of carbon dioxide, the body responds by releasing more oxygen to the area, creating a lifting and plumping effect.
- CoolLifting is a "Dermal Delivery System" (DDS) – a technology that improves the application of active ingredients on the skin.
- CoolLifting's unique hyaluronic acid serum also contains sorghum bicolor stalk juice and wheat protein, which help improve skin's general appearance.

WHY CARBOXY SPRAY?

Simply put, cryotherapy is treating the skin with extreme cold. 100 years ago, practitioners employed a block of dry ice carbon dioxide to treat problem areas of the skin. Today, carbon dioxide is sprayed onto the skin in combination with hydrating serums to restore hydration, luminosity, and create a more youthful look to your skin.

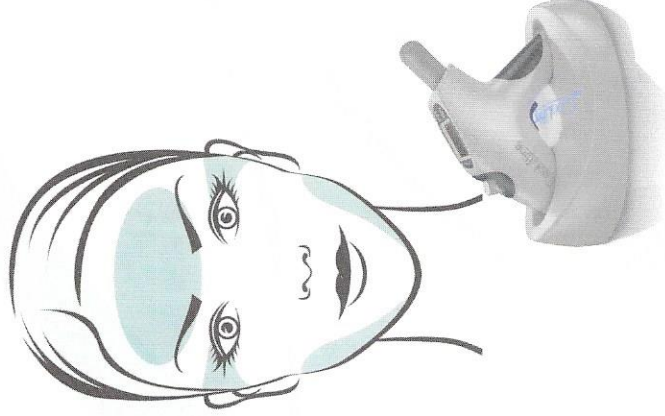

HOW IT WORKS

CoolLifting works by using a carboxy spray to deliver a hydrating serum to problem areas of the skin. CoolLifting can be done in just a few minutes and there is no downtime after your session. There is no pain with CoolLifting and you can resume your normal skin regimen the next day.

BENEFITS OF COOLIFTING

LUMINOUS & RADIANT SKIN.

- INCREASED HYDRATION FOR MORE YOUTHFUL & HEALTHIER LOOKING SKIN.
- TISSUE STIMULATION FOR EVEN SKIN & FINE LINE LIFTING.
- CALMING OF SKIN AFTER MICRONEEDLING, MICRODERMABRASION, LASER SURGERY & OTHER PROCEDURES

TREATMENT LENGTH

CoolLifting is a four-minute treatment in which a proprietary serum is dispensed on area typically plagued by fine lines and wrinkles. As shown above, application is concentrated on areas in light blue. Expect to feel the most tightening 12-24 hours after a treatment, as well as noticing an overall healthier look and feel to your skin. CoolLifting is the ideal facial - effective, fast-acting, and risk-free.

FAQ

Q. HOW LONG WILL IT TAKE TO SEE RESULTS?

There is an immediate luminosity to the skin. You will also notice a lifting/tightening effect with 12-24 hours of the treatment. Clients who sign up for a package of three treatments, followed by monthly follow-ups, will see substantial improvement over time.

Q. IS THERE ANY MAINTENANCE REQUIRED AFTER A TREATMENT?

Post-treatment, you can return to your regular skin care regimen, with a good moisturizer followed by a mineral sunscreen. These guidelines also apply if you get CoolLifting "maintenance" treatments.

Q. CAN PEOPLE WITH SENSITIVE SKIN BE TREATED WITH COOLIFTING?

Yes. CoolLifting can be used on all skin types or degrees of pigmentation.

Q. IS IT OK TO USE COOLIFTING AFTER MICRONEEDLING?

CoolLifting can be used in conjunctions with microneedling, chemical peels, microdermabrasion, and other procedures to reduce the redness and inflammation caused by these procedures.

Q. IS THERE ANY DOWNTIME AFTER A TREATMENT?

There is NO downtime after CoolLifting. In fact, it's a perfect "Red Carpet" facial before a special event like a black tie dinner, wedding, or class reunion.
