To Whom it may Concern,

I am writing the letter on behalf of Carolyn Guardino. Carolyn is a licensed aesthetician that I was privileged to meet over twenty years ago. I am a practicing Dermatologist in Summit, New Jersey since 1997. I became acquainted with Carolyn when she began treating patients in my office. She was extremely knowledgeable about many different types of laser treatments, and in particular, treated many of my patients using laser hair removal. Carolyn owns and operates many types of lasers and is reliable in her understanding of the safe usage of lasers as well as various photo devices, microdermabrasion, skin tightening using infrared technology and microneedling just to name a few of her modalities.

Carolyn is intelligent, dedicated and reliable in all ways that one would hope that a cosmetic/ aesthetic service oriented provider would be. Her knowledge and experience cannot be compared to any other aesthetician I have encountered. The devices that she uses are capable of delivering benefit but also can be dangerous in the hands of an individual not fully trained and experienced in their use.

During the years that Carolyn has treated my patients there was never an adverse issue. Patients appreciate her ability and exemplary care. I would recommend Carolyn whole heartedly to anyone seeking the aesthetic services that she provides.

Please don't hesitate to contact me with questions,

Sincerely,  
Teresa V. Notari, MD

To Whom it May Concern:

I am writing this letter on behalf of Carolyn Guardino. Ms. Guardino has worked under my supervision for over ten years. During this period of time we have used a variety of laser devices to treat our patients. Recently, we added radiofrequency technology and we have had been fairly successful with this new treatment.

I really must credit Ms. Guardino for much of my success with this particular aspect of the practice. She has been an integral part of my laser practice. Ms. Guardino spends a great deal of time learning about all the different devices and how to use them effectively and safely. Often, she will go to professional medical meetings to attend seminars and also investigate new devices.

Over the past ten years Ms. Guardino has treated hundreds of patients with outstanding results. I believe the secret to her success is her extraordinary knowledge coupled with an honest approach with the patients about expected outcomes. Additionally, she has a wonderful relationship with patients and does a great job preparing them prior to the procedure.

I look forward to working with Ms Guardino for many years to come and I believe that she will continue to be an asset to my practice. Should you have any further questions, feel free to contact me at any time.

Sincerely,

Sharon Scherl, MD FAAD

To Whom It May Concern:

In 1997, through the referral of a fellow physician, we had the good fortune to meet a licensed aesthetician named Carolyn Guardino. We found her to be extremely knowledgeable regarding the various modalities associated with laser skin care. Soon after, she joined our group practice on an 'as-needed' basis, affording us the capability of responding to our growing need for a cosmetic addition to our clinical practice.

Over the past few years, Carolyn has been instrumental in steering our group into the realm of cosmetic dermatology. Our confidence in this most-likeable young woman has been increased further by her sharp attention to detail, diligent research into the latest equipment and techniques, and gregarious personality. She single-handedly runs her small company, Cosmedx Comfort, with diligence, confidence and long hours. Her work ethic is beyond reproach.

Very truly yours,

  
William J. Orsini, MD

Re: Carolyn Giordano

To whom it may concern,

This letter will serve as a recommendation for Carolyn with respect to the clinical practice of hair removal.

I have had the opportunity to supervise and work with Carolyn over the past 10 years. Her clinical and personal skills are excellent with respect to laser assisted hair removal. I've had the opportunity to observe her treating many hundreds of patients over this time period and can attest to excellent clinical outcomes. I am pleased to recommend her for appointment.

Very truly yours,

Barney J. Kenet, M.D.
