

# PIONEER/FOUNDER AND CEO OF COSMEDX COMFORT®

## Carolyn Guardino, Aesthetician

Certified Educator of Laser and Light Devices

Carolyn has a strong passion for dermal rejuvenation and tightening treatments, as she has been a leading laser specialist and medical aesthetician for over 20 years. She believes the skin is a window to our health – just as we must exercise to live a healthy life, one must also find a regimen that “exercises” the skin. For patients who prefer to avoid cosmetic surgery or for those wanting to optimize their post-operative results, Carolyn offers a wide range of services. These include: customized skin tightening, fat destruction, collagen rejuvenation, photo facials, hair removal by laser and more.

Carolyn dedicates herself to always doing what's best for each client, working hard to achieve a significant, positive change in their skin.

### CAROLYN'S PHILOSOPHY:

Carolyn is a pioneer of aesthetic treatments in New York and New Jersey, and sets herself apart by devising treatment strategies that are balanced, comprehensive and offer meaningful results. For the body, she has proprietary treatments to tighten and lift. For the face, her process helps rejuvenate the the entire surface from the neck up through the forehead. She has discovered a way to re-excite the protein in the elastin while also stimulating the collagen for a lifted and rejuvenated look.

Carolyn's specialized, balanced approach ensures that the appearance of the skin is cohesive and rejuvenated as a whole.

#### EXPERT CARE

20 years of experience behind every personalized rejuvenation plan.

#### ADVANCED TREATMENTS

Personalized treatment plans for every patient using the newest in aesthetic technology

#### HAPPY CLIENTS

## SKIN TIGHTENING

**SKINTITE™** proprietary serums and method firm skin to promote a more youthful appearance. These relaxing, pain-free treatments deeply penetrate the skin with heat, leaving the surface undamaged.

As we age, our skin elasticity weakens & slows. These procedures stimulate the skin's protein layers, bringing back its youthful bounce & placing it in a hold pattern that can be maintained synergistically with our proprietary products and treatment.

*Target Areas: Arms, Abdomen, Buttocks, & Thighs*

Initial Treatments	6 sessions
Maintenance Treatments	1-3 sessions / year

## BODY SHAPING BY RADIO FREQUENCY

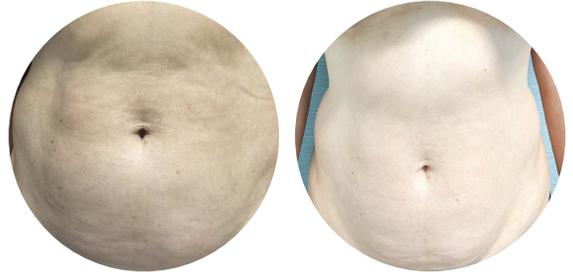

Uses the latest cutting edge non-invasive radio frequency technology along with our proprietary treatment to deliver concentrated thermal energy to renew, revitalize and refresh the body, this method shrinks fat cells while tightening and toning the body's elasticity for a better appearance.

*Target Areas: Arms, Abdomen, Buttocks, & Thighs*

## REVOLUTIONARY ULTRASOUND TREATMENT FOR FAT DESTRUCTION

Ultrasound is the most powerful tool for skin tightening and cellulite reduction. The combination of our interactive products and innovative method brings results to the next level. Combining our proprietary **SKINTITE™** method and interactive product, results are seen immediately and accumulatively. Bringing the customer experience to a whole new level.
